

MAJORITY IN  
SENATE FAILS  
TO WIN POINT

Democrats in Upper Branch Of Congress Have Caucus Plans go Awry in Reference to Shipping Bill.

DEMOCRAT INSURGENTS  
ARRAIGNED BY STONE

Republicans Threaten to Continue Attack Until Bill Meets Their Approval or Goes Over Till March.

WASHINGTON, D. C., Feb. 3.—Plans of the administration Democrats to save the Government Ship Purchase bill went awry in the senate but the champions of the measure have not abandoned hope of success in effort to compel bill with definite instructions for its amendment. The republican Democrats flatly refused to accept the concessions of the majority agreed upon in secret caucus last night and the majority leaders discovered early in the day they could not muster enough votes for their program to defeat the republican Republicans and insurgent Democrats meeting to amend the bill to the committee without instructions or to be pigeonholed for the session.

Then party leaders determined to hold off the vote and agreed in the meantime to postpone action on the seven Democrats who overruled the shipping bill program Monday. The Republicans are trying to hold off the vote until absent members can arrive in Washington. The Democrats are also making every effort to gain the full strength of their party on hand.

Senator Stone of Missouri delivered a long speech bitterly attacking the "reversionary Democrats" who had endeavored to postpone their vote. The particularly attacked Senator of Arkansas who is described as the leader of the "reversionary Democrats" into secret agreement with the Republicans.

He charged Clarke had violated campaign pledges a charge which the Arkansas senator denied in a vigorous speech explaining that he had severed his colleague that he would not be found to have acted which would defeat him of his right to vote against the ship purchase bill. Clarke also replied, declaring that he would not be found to have acted which would defeat him of his right to vote against the ship purchase bill.

While Stone was speaking, Frank Simmons, Fletcher Martin and others were working like Trojans to prevent a vote before action could be taken. Simmons declared that the government of the United States should be able to handle the situation without the aid of the ship purchase bill.

Simmons declared that the government of the United States should be able to handle the situation without the aid of the ship purchase bill.

## JOBS SURRENDER

WASHINGTON, Feb. 3.—A bill, which authorized that the government of the United States should be able to handle the situation without the aid of the ship purchase bill.

LESS THAN THIRTY DOLLARS IN CHANGE FOUND  
WHEN STATE AUTHORITIES ENTER SAFE OF THE  
BOWIE BANK AND TRUST COMPANY; LOSS \$5000

Brother of Missing President And Cashier is Arrested at San Simon When He Attempts to Board Train.

PHOENIX, Feb. 3.—Less than thirty dollars in change was found in the safe of the Bowie Bank and Trust Co. when the state officials opened it.

'KEEP MY HUSBAND  
FROM OTHER WOMAN,'  
SHE BEGS OF JUDGE

Mrs. Arthur St. George Joyce (top) and Mrs. Hazel C. Sherman.

Mrs. Arthur St. George Joyce has petitioned an Atlanta (Ga.) judge to restrain Mrs. Hazel C. Sherman from hanging around Mrs. Joyce's husband. The judge has issued a temporary order and will hear Mrs. Sherman's side of the case February 12. Both women are from Philadelphia, but some time ago the Joyces went to Atlanta. Mrs. Sherman followed them to see her mother, as she puts it.

MEXICAN PEOPLE  
ARE MOVING  
BACK INTO  
NACO

As an evidence of the confidence felt in the government, now in control of Naco, Sonora, it should be pointed out that yesterday a number of fifteen Mexican families moved across the international boundary line and will live on the Mexican territory. This was one of the developments of the day on the Sonora side of the line.

The first act of Commander Breton yesterday morning was to visit Governor Jose Maytorena, ex-Nazario, to send him a school teacher for Naco, Sonora. Breton asked that the "teacher" be sent at once as there were a number of children in the town of Naco who should be attending the school.

It was a surprise to the children and the teacher when they found that the school was open.

At about Governor Maytorena this morning for a good teacher and a new teacher in operation by the first of next week.

The business of cleaning up Naco is continuing in force. The men on the staff of Breton have been busy every minute of the day.

HOUSE HOLDS  
UP RELIEF  
LEGISLATION

House Committee Recommends Against Passage of Bill Which Would Make Relief for Bill's Sufferers

FURTHER HEARING ON  
THE MINE TAX MEASURE

Relief Measure for Cochise Residents Who Lost Cattle By Reform School Inmates Introduced by Newberry.

PHOENIX, Feb. 3.—The judiciary committee of the house, in its report today, recommended against the passage of the bill which passed the senate repealing the Old Age and Mothers Pension law and which enacted a new system for pensions. The house is closely divided on the bill and its enactment with the emergency clause seems doubtful.

The mine tax bill which has been lying dormant in the house since its receipt from the senate came into the limelight today by an announcement made by Graham, chairman of the Ways and Means committee, that certain parts of the testimony taken at the joint hearing would be further explained by those previously examined.

The state tax commissioners have further data they desire to submit and all testimony bearing on the subject matter of the bill, Graham says, which was not put in the records before it can be brought before the house committee.

Of new bills introduced today the most important was by Edwards which amends the existing law by increasing from sixteen to twenty years the age of minors to whom certificates may be sold by dealers. Edwards had a new bill, a measure heretofore approved by the state federation of labor, making it unlawful to deceive applicants for employment as to the conditions existing at a place where a demand exists for the employment of labor.

In a bill introduced by Newberry, a relief measure, the state is asked to reimburse H. J. Farley \$1,000 and Mrs. K. Holmes \$150 for cattle killed through act of inmates of the reform school. One point heretofore made public of lack of discipline at the state reformatory was again brought up. Two boys, running the school auto truck from Wilcox to Fort Grant, it is claimed, threw a keg of white lead into a field where the cattle were running. The cattle owned by the beneficiaries under today's bill, at the lead added from its effects. The board of control at the time the matter was before them, said they had no authority of law to pay the claims presented.

The senate committee of the whole approved the board of public welfare bill, which abolishes the board of control and finally passed and sent to the house the bill authorizing cities to appropriate money to chambers of commerce. Governor Hunt signed the state fair deficiency appropriation.

putting the town into better shape and quite a squad of searching men the morning, outside the trenches, for unburied bodies. When found these are given decent burial. Also the bodies of dead horses are disposed of in the same manner.

Breton is determined that Naco shall become a town in which the people of Mexico can live. Apparently he has been given carte blanche by Governor Maytorena to take any steps deemed necessary to put Naco back in good condition.

A great amount of work is still necessary to make the once-splendid city large resemble the town it once was. But every effort is being extended in that direction and the commander of the port of entry to Mexico appears to be the man fully qualified to handle the task.

While searching through the brush outside of the hill trenches yesterday the body of Captain Flores one of Maytorena's officers was found. Flores fell in the last attack upon Naco. He was considered one of the Governor's most valiant soldiers and one of the objects of the search was for his body.

Flores' mother has been notified of the discovery of the body and burial will be held up pending her instructions. It isn't thought probable that Capt. Flores will be given a military funeral in Naco within the week.

'DO IT NOW!' PLEADS MOTHER JONES WITH JOHN D., JR.,  
WHEN LATTER TELLS HER HE'LL STUDY COLORADO SITUATION

Mother Jones shaking hands with John D. Rockefeller, Jr.

"Do it now! Do it while the ashes of Ludlow are still hot!" This was the appeal of Mother Jones to the son of John D. Rockefeller, Jr. that he will "sometime in the future" visit the mining camps of Colorado so that he may obtain first-hand information of conditions among the workers. Mother Jones shook hands with young Mr. Rockefeller and after their review each said complimentary things about the other.

## MEXICO CITY IS NOW FACING STARVATION

BUSINESS WANTS  
MINING TO GET  
A SQUARE DEAL

How the Arizona Chapter of the American Mining Congress wants to be and will be a help to every business industry and to every wage earner in the state was explained by National Secretary Wolcott last night to a representative audience assembled in the reading room of the Y. M. C. A. Capt. J. P. Hodgson introduced the speaker and emphasized the importance of business men of the Warren district joining heartily in the movement from which all would benefit.

Mr. Wolcott described Arizona as one of the richest states in the Union in the mineral wealth but one of the least developed. He said it seemed to be nobody's business to find out why the minerals were lying idle and so the Mining Congress planned to take the lead in an inquiry which would correct this condition.

"We intend to ascertain the mineral condition of every part of the state," he said, "and learn what is essential in securing the development of each part. Capital sufficient to develop your resources is not available in Arizona but it is foolish to say that outside capital is not ready and willing to provide development if it is shown that conditions are right. If present unfortunate conditions are due to national laws, we will remedy them. If local laws are at fault they must be corrected. The Arizona Chapter is going to get right out and fight for whatever legal reforms are necessary. We are going to see that the mining industry gets a fair deal in Arizona."

"There is not a man who is not vitally interested in this movement. For the small miner with a prospect, this is the one great movement for him. It will provide him with an opportunity for a hearing. There is no use of me telling you Bisbee business men of the importance of the movement of the movement to you. What is true of you is true of business men in Phoenix, Tucson and every other community in the state. The wage earner is even more interested than the mining man."

Mr. Wolcott wants to receive assurances of both moral and financial support from the Warren District Membership in the Arizona Chapter can be secured by the payment of \$5 for annual dues and is open to men of any business calling. Local officers are W. B. Gohring, who is a vice-governor and member of the Finance Committee, and Capt. J. P. Hodgson, who is a director and member of the Legislative Committee.

Carranza Government Holds  
Up Diplomats Messages in  
Code and Orders that they  
Be Censored.

WASHINGTON, Feb. 3.—A scarcity of food in Mexico City with predictions that much suffering would follow unless conditions are relieved, is reported in official dispatches to the state department. Carranza officials are moving their records to Vera Cruz where it is reported the capital of the Carranza government will remain. Much anxiety is manifested here by members of the diplomatic corps over conditions in Mexico City because of a ban on cipher communications placed by the Carranza authorities. Local telegraph officers said the Carranza government in Mexico City notified them not to accept messages in code from foreign governments except at the sender's risk and subject to inspection.

This is the first time, it is said, that foreign diplomats have had serious difficulty in reaching locations in Mexico City. The state department officials are getting their telegrams but with much delay. Aliso Arrando, head of the local Constitutionalist agency, made public tonight the following report from Vera Cruz:

"General Gonzalez reports the capture of Cuervo in the state of Nuevo Leon, fifteen miles east of Monterrey. The Villa forces were decisively defeated and suffered heavy losses. Between Montemorelos and Linares, General Sandoval commanding the Villa army, was overwhelmed and forced to retreat north. Thursday, railroad traffic between Vera Cruz and the capital will be resumed. On account of the scarcity of food in Mexico City the Vera Cruz Chamber of Commerce arranged to send supplies there by the first train."

## STEAMERS IN THE ICE

CHICAGO, Feb. 3.—Twenty steamers are fast in the ice along the western shore of Lake Michigan between Chicago and Milwaukee according to reports received here by officials of transportation lines. There is a likelihood of releasing them on the wind changes.

## GERMANS LOSE BOAT

PETROGRAD, Feb. 3.—It is officially announced that a Russian submarine on January 25 sank a German torpedo boat off Cape Noen in Denmark.

## SWISS FIRE ON AEROPLANE

LONDON, Feb. 3.—A German aeroplane flew over Swiss territory today and was fired on by Swiss infantry, according to reports from Basel.

## RIOTS OVER BREAD PRICE

SASSARI, Italy, Feb. 3.—Riots because of high price of bread are assuming grave character. Crowds went about the streets packing stones. Strong reinforcements of troops were called out to maintain order.

GREAT LOSS  
ATTENDS THE  
GERMAN GAIN

German Advances in Russian Poland Attended by Extra Heavy Losses in Men while Gains are Small.

THE TAKING OF WARSAW  
IS CONSIDER IMPOSSIBLE

Attempt of Germans to Torpedo English Hospital Ship Excites Great Condemnation in England.

LONDON, Feb. 3.—With comparative quiet prevailing along the western front, fighting in the east which is more strenuous, is widespread and monopolizes attention. While the Russians are on the offensive in east Prussia and in northern Poland and the passes in the Carpathians, the Russian lines along the Dnieper and Rukh rivers. The invaders reached the Rukh line about the middle of December and since then have at least a half dozen attacks in force against the Russian trenches, each time at an undoubted heavy cost. Nothing daunted, however, they have been repeating the attacks day after day. While they made a slight advance it was accomplished only after further great losses, according to reports from Petrograd. It is now believed the Germans are preparing still another onslaught.

Only by compelling the Russians to strengthen their lines protecting Warsaw, can the Germans hope to divert Russian attacks from east Prussia and Hungary. Military men here told of the belief the Germans are attempting what seems virtually the impossible in their efforts to force a way through to Warsaw. The Dnieper and Rukh lines, which they have been attacking for six weeks, are exceedingly strong for on the right bank of the river, which the Russians for the most part hold, the ground is considerably higher than on the left bank so that the Russian infantry and artillery have an added advantage. Should the Germans break through this barrier there is another line of entrenchments half way between Dnieper and Warsaw, with Dnieper as a river which would have to be crossed before the Polish capital fell.

In the Carpathians the Austrians and Germans are offering vigorous resistance to the Russians. A decision has not been reached in the battle which has been progressing there for some days. A statement in the official report that there is fighting in the northeast of Likos Pass in the interior of Dukla Pass and to the southeast of Beskid Pass, indicates the extent of the struggle for the possession of these important strategic points.

An attempt by a German submarine as officially reported, to torpedo the British hospital ship Asturias, has attracted a great deal of attention in England where it is strongly condemned.

VIENNA REPORTS 1000  
PRISONERS CAPTURED

VIENNA, Feb. 3.—Russian attacks are continuing, even during the night to the east of Beskid Pass and have been repulsed with heavy losses, says the official report. "Fighting in the middle wooded mountains is taking a favorable turn. We and our allies yesterday captured a thousand prisoners and several machine guns, while winning the heights which were stubbornly defended by the enemy in Poland and Galicia there is a chance."

HOATSON SHAFT  
OPENED TO WORK  
LAST EVENING

Men are Put on Pay Roll by C & A. and Activity is Seen Around Well Known Shaft—Good feeling Abroad

The Hoatson shaft, of the C & A and Arizona mining company, was actively last night for the first time since the close down last August. With the activity there it is reported that approximately twenty men were placed on the pay roll of the company and more are expected to be hired in the very near future.

A better feeling prevailed the entire district when this became known, than has been felt here for many months. The merchants and workers and all others interested in Bisbee, feel that the time is not far off when Bisbee will be back on the footing of last spring when it was called, justly, the biggest and best mining section in the United States.

It is understood that the ore workings of the Hoatson will be first taken care of. The ore, it is further understood, will be taken out at the Junction but the ships at the Junction will be used for passengers and material. The saw mill of the C & A, located near the shaft, will do about first an outlet for a good deal of its product through the Hoatson hoist and thence into Junction territory.

The electric tram connecting up the hoist workings, with those of the Junction, will be in full operation, according to the forecast, within several weeks. This will enable the ore to be handled more expeditiously and more economically.

COSTUME CLERK OF SAN FRANCISCO IMAGINES  
HE IS MEANT FOR FASHIONABLE CIRCLE; HE  
PROCEEDS TO TRY IT OUT AND LANDS IN JAIL

After Impersonating Speckles Jr., Man is Arrested and Then Allured to go When He Promises to Quit it

SAN FRANCISCO, Feb. 3.—Nathan Desmond, a clerk of the Goldstein-Cohen Company, costumed, believed he was meant for different world. Armed

with a bundle of society women's calling cards and a checkbook, with an imaginary deposit of \$50,000, he blossomed out as a man of fashion at a hotel bar. John B. Spreckels, Jr., whom he was impersonating, caused the arrest of Desmond. He was released on probation when he promised to curb his imagination.
